

Soul

Ookay

Giving every piece of my soul
Say you won't go
Please don't leave me no
Giving every piece of my soul
Giving every piece of my soul

Giving every piece of my soul
Say you don't know
Please don't leave me no
Giving every piece of my soul
Giving every piece of my soul

Giving every piece of my soul
Giving every piece of my soul

I promise I will give you my heart
I'm pouring everything that I have into you
It'll never end when we start
And any situation I know will break through
Cus I have these feelings that I can't control
We've been through the fire left out in the cold
The stories we share, the world will never know
As long as I have your hand to hold

Giving every piece of my soul
Say you won't go
Please don't leave me no
Giving every piece of my soul
Giving every piece of my soul

Giving every piece of my soul
Say you don't know
Please don't leave me no
Giving every piece of my soul
Giving every piece of my soul

Giving every piece of my soul
Giving every piece of my soul
Giving every piece of my soul
Giving every piece of my soul
