

Sure

Ookay

I know what you're looking for
But it ain't me
Sorry I had to break it to you
And I just like the company
Just wanted to meet only for a little while
So what makes you so sure
That I won't break your heart
That I will be the one for good with you
What if it ends before it starts

I know what you're looking for
But it ain't me
Sorry I had to break it to you
And I just like the company
Just wanted to meet only for a little while
So what makes you so sure
That I won't break your heart
That I will be the one for good with you
What if it ends before it starts
