

Weekends

Ookay

She asked me if I party on the weekends
She only hits me up when I'm sleeping
She likes to stay up doing drugs for no reason
She likes to stay up doing drugs for no reason
She asked me if I party on the weekends
She, she asked me if I party on the weekends
She likes to stay up doing drugs for no reason
She only hits me up when I'm sleeping

My little Mary Jane, come over to my place
Hide under the covers, get high on the weekdays
I don't wanna leave, no, I just wanna stay (stay)
Tell me if you coming to my place

We can hide where no one can find us again
High, when we on private 'cause
I'm sick of all the nonsense
The parties, they're endless, they're endless, yeah

She asked me if I party on the weekends
She only hits me up when I'm sleeping
She likes to stay up doing drugs for no reason
She likes to stay up doing drugs for no reason
She asked me if I party on the weekends
She, she asked me if I party on the weekends
She likes to stay up doing drugs for no reason
She only hits me up when I'm sleeping

A molly from the bay, are you coming my way?
Pocket full of pills just to make you feel okay
I don't wanna leave, no, I just wanna stay, stay
T-t-t-tell me if you coming to my place

We can hide where no one can find us again
High, when we on private 'cause
I'm sick of all the nonsense
The parties, they're endless, they're endless, yeah

She asked me if I party on the weekends
She only hits me up when I'm sleeping
She likes to stay up doing drugs for no reason
She likes to stay up doing drugs for no reason
She asked me if I party on the weekends
She, she asked me if I party on the weekends
She likes to stay up doing drugs for no reason
She only hits me up when I'm sleeping

She only hits me up when I'm sleeping
She only hits me up when I'm sleeping

She asked me if I party on the weekends
She only hits me up when I'm sleeping
She likes to stay up doing drugs for no reason
She likes to stay up doing drugs for no reason
She asked me if I party on the weekends
She, she asked me if I party on the weekends
She likes to stay up doing drugs for no reason

She only hits me up when I'm sleeping
