

## U-Said

Oomph!

U said we could be a nation  
It's time, time to make amends  
Wake up, feel the fascination  
Join us, fate is in our hands

Raise your body!  
Raise your body!

U said meet me at the station  
It's time, time to be a man  
Awake, feel the domination  
Restrain, every now and then

Raise your body!  
Raise your body!

Don't think too much!  
Listen:

I am the mood that sticks in your mind  
I am the boot that kicks your behind  
I am the thorn that burns in your side  
I am the dawn, the turn of the tide  
I am the heat that's making you sweat  
I am the beat that's breaking your head  
I am the sound that's giving you pain

U said stop your lamentation  
It's time, time to understand  
Live fast, drop reincarnation  
Die young, only for your land

Raise your body!  
Raise your body!

U said we could be a nation  
It's time, time to make amends  
Wake up, feel the fascination  
Join us, fate is in our hands

U said we could be a nation  
Come on, show me how you feel  
U said we could be a nation  
Hold on, we can make it real

Raise your body!  
Raise your body!

Hold your head up high  
I kick it away - you bother!
