

What's inside
Far away, separation
I don't know now
Looking back far away
Falling down inside
I'm so helpless
I want you under
I want you on my side
You said to me "I want you on my side"
I knew just what to say
I did it all for you
For you
What's inside
Far away, separation
I don't know now
Looking back far away
Falling down inside
I'm so helpless
You are the one
Why am I not the only one
Decide what you want from my friends
Someone I know why
Decide to stay right now this time
Someone I know why
Then you walk away
I know what it's like
Watch me fall away from you
Then you walk away
So very far from you in a softer way
I know it's like
I want you when on my side
I know what it's like
I know it's like
I want you where by my side
To save me from myself again
Far from you
Stay down
