

# Dark Comedy Late Show

Open Mike Eagle

We have a fuckin', uh, incredible show for you tonight  
Pardon me for saying "Fuckin'" on network television-  
I'm not gonna have this job for long-It's Exile!  
It's me, it's you. These are our guests  
Let's go. Yeah

I gave up and became a Spotify-er  
Paying myself a fraction of a penny playing "Qualifiers"  
I'm looking up and I'm stuck in a Chucky movie  
Saying yucky shit for chuckles like it's Lucky Louie  
So somebody better cancel me  
Before I get a chance to screen this ass-naked dance routine  
It's dark comedy, cold as a soldier's stare  
I've been exposed, so now the LOLs is my over-wear  
And I'm a polar bear with words for a fancy song  
I think it's the first verse from Little Miss Can't Be Wrong  
Fuck you, I like the Spin Doctors  
Is that dude Finn's father or just an impostor?  
The new internet thing's to be pretend awkward  
Non-prescription, thick-rimmed frames and rented gym lockers  
I'm a rapper, we lament being broke  
All the comics get money, but they spend it on coke  
You can watch us on the newsfeeds  
Fucking y'all's mornings up  
Until America admits that it likes dogs more than us  
And I can see the Super Bowls of the future:  
The Ferguson blacks vs. Missouri State Troopers  
The privacy rights vs. the personal computers  
Concussion researchers vs. university boosters  
I graduated college, I purchased all the extra books  
I'm supposed to be living in a house with a breakfast nook  
Joke's on me, though  
All this cheap alcohol and no Coke Zero  
Ashamed how proximity kills yo heroes  
Hey, yo, no poking, I'm still woke, Cee-Lo  
Yeah, It's all ripped from the headlines  
I'm all outta options like a Crip on the red line  
I got a deadline, before I never had a deal  
Stormed out of business meetings, slipped on mass banana peels  
I should probably shut my stupid mouth  
Shirtless in a fur hat and Vladimir Putin pout  
And North Korea's got practice missiles  
And I still check Yahoo cause we both got attachment issues  
Our Congress moves just like a cult could  
Invade Iraq 15 times in my adulthood  
And we quit asking for the reasons  
And clicked the Constitution's terms of service agreements  
We're dreaming from sundown to high noon  
And woke up by U2 albums all in your iTunes  
And it's close to a all out war  
With kids being murdered just for being black and tall outdoors  
They respond to demonstrations wearing kevlar briefs  
When the main problem is nobody respects our grief  
They say if it bends it's funny, if it breaks it ain't though  
I still got broke pockets and trying to host the Late Show  
Recording it every night, but I don't know where the tape go  
Homeless fashionistas tell me everything that they know

Yeah, you got a style  
Tie them fancy sandals up, smile  
You on the NSA's candid cameras, now  
I'm in a church basement learning Shotokan  
I saw Jesus taking a selfie and I photobombed  
And dude better tag me  
A little recognition makes me do better gladly  
Like this one time when I got booed at a track meet  
In a Hellfyre Club sweater for two letter athletes  
One for regret dreams, one for most suppressed team  
Pressure valve gets released and sprays like a jet stream  
Karl Kani's and Z Cavaricci's from Chess King  
K-Mart name brands were the least interesting  
I appreciated presidential speeches on the West Wing  
I never had wet dreams or piloted an X-Wing  
I'm still terrible at being sarcastic black  
My man Exile, he knows what I'm laughing at  
My man Toy-Light, he knows what I'm laughing at  
The studio audience knows what I'm laughing at

Laughing at all types of shit  
I laugh at, um, CNN. I don't know why  
That might be an issue; that might be a problem actually  
It's not, it's not a humorous channel, you know what I mean?  
It's not trying to compete with Comedy Central  
If anything, it's trying to compete with Headline News  
Which I'm pretty sure is like the same company  
Or it's trying to compete with, uh, MSNBC kinda  
MSNBC is blue and to the left  
CNN is red, white, and black, and in the middle  
And Fox News is bright red and hollerin', and on the right  
And there's an elephant and a donkey  
And then an eledonkeyphant. A donkaphant  
Uh, a helladonkaphant. Shit
