Open Mike Eagle

Should've been cool  
But dude got screwed up  
'Cause shit got burned up  
So he fucked her up  
Then she turned big  
I got chewed up  
That shit fucked me up  
So Imma fuck you up  
A kid called him  
That kid grew up  
And messed his kid up  
He fucked her shit up  
Then she fucked dude up  
It all got screwed up  
And that fucked me up  
So Imma fuck you up

Took a bad fall, bad fall  
Look, but we had nothing to land on  
Damn, she reached out and put her hands on me  
But then we knew we had the math wrong, shit  
Took a bad fall, bad fall  
Look, but we had nothing to land on  
Damn, she reached out and put her hands on me  
But then we knew we had the math wrong

Should've been cool  
But dude got screwed up  
'Cause shit got burned up  
So he fucked her up  
Then she turned big  
I got chewed up  
That shit fucked me up  
So Imma fuck you up  
A kid called him  
That kid grew up  
And messed his kid up  
He fucked her shit up  
Then she fucked dude up  
It all got screwed up  
And that fucked me up  
So Imma fuck you up

So, you know, now I think we've got it figured out. It's a cycle. And, you know, now that we know it'll never happen, never happen, again.

Made shit speed up  
I hate this re-up  
This shit cost too much  
The liftoff blew up  
The bullshit's teed up  
The heart got beat up  
But which one's Bluto?  
Hips won sixth sun  
This my judo  
But which one you know?  
You can't know me though

He ain't no ego  
My eyes go blank  
My brain goes zero  
'Cause that's my piece  
Police my ego  
An L-sized strike  
And it's like Hapkido  
It's like that, people  
It's like when Professor X wiped Magneto  
I'm like bandito  
Sometimes I flip and I find tranquilo  
My costume's green  
The night man's below  
The scene goes dark  
Time to fight back hero  
I lift my feet up  
I lift my feet up  
I lift my feet up  
I tripped

Took a bad fall, bad fall  
Look, but we had nothing to land on  
Damn, she reached out and put her hands on me  
But then we knew we had the math wrong, shit  
Took a bad fall, bad fall  
Look, but we had nothing to land on  
Damn, she reached out and put her hands on me  
But then we knew we had the math wrong
