

Four Days

Open Mike Eagle

Smoked weed and got paranoid
Shaved off all of my facial hair
Around all of these important people
I didn't believe I belonged there
See, [?] is an important person around his important friends
Annual horse race hosted by the town [?]
I knew I shouldn't have hit the weed, thought I'd be more alert
Stepped out the bathroom with a bloody face and bloody shirt
I'm mumblin' and stutterin', nothin' much to add or say
Repeat what the last guy said and everything would okay
My beard is gone, I'm so uncomfortable
It's only the first day, supposed to be getaway
My place is a bloody mess
Tried to [?] girl
It didn't go so well, I got blood on her damn lapel

I made a mess in my friend's bathroom and I failed to clean it
up
("What the f- is your problem [?]? ")
I overstayed my welcome, four days too long
Oh, those four days

The last time that I stayed with my grandpa
After grandma died from the cancer
And I had just grown out of my asthma
After summer school at SIU
He had a new lady friend that I guess I knew
An old coworker so unprofessional
Tryna to crash in the room I grew up in
The room where I played Street Fighter with my cousins
On the day of the [?], I'm summertime homeless
Tryna to stay where it's safe
Realized pretty soon that I've made a mistake
And just not in the figurative sense
Two days in, I [?]
Gave my hands a good wash and a vigorous rinse
And I noticed after flushin' that the bowl was pretty fool
A few brown kids jumped out of the pool
Grandpa's floor covered in another man's stool

I made a mess in my friend's bathroom and I failed to clean it
up
("Dammit [?], I swear to God.")
I overstayed my welcome, four days too long
Oh, those four days
