

# Gold Gloves

Open Mike Eagle

Frinklin' my nose  
Stretchin' out my arms  
Focusin' my qi  
Concentratin' hard  
Can't remember how (can't remember how)  
Swear I knew before  
Finally found the rocks  
I don't know how to use 'em, though (how to use 'em, though)  
Fist can fit the glove  
Lifted it with love  
No one escapes the hurt  
Except Her or Him that sits above (sits above)  
Y'all remember me? (Y'all remember me?)  
Can't forget the snap  
Thought I took a L  
I came to give it back (came to give it back)  
Helicopterred in  
My name is on the paint  
Here because you called  
What is your complaint?

Wrinklin' my nose  
Stretchin' out my arms  
Focusin' my qi  
Concentrating hard  
  
Y'all's assemblin'? (So what?)  
Five fingers, one gold glove  
Five fingers, one gold glove  
Five fingers, one gold glove  
Y'all's assemblin'? (So what?)  
Five fingers, one gold glove  
Five fingers, one gold glove  
Five fingers, one gold glove

Confidence assured (confidence assured)  
Used to murder hoods  
Clearly, I forgot  
It's not like what I learned in books  
Too concerned to look and think it my head  
My helm is broken, my head is swollen  
My goal is many dead  
Nose is plenty red  
Do I know a villain? Yeah  
Maybe it's me  
My gruesome body, my giant skull  
And my eighty-seven teeth (eighty-seven teeth)  
My home planet, I'm leaving it  
It's the origin of my neediness  
In my mind's eye, I'm a time-cop  
That needs five rocks as ingredients

And I'm wrinklin' my nose  
Stretchin' out my arms  
Focusin' my qi  
Concentrating hard  
Can't remember how (can't remember how)

Swear I knew before  
Finally found the rocks  
I don't know how to use 'em, though (how to use 'em, though)

Y'all's assemblin'? (So what?)  
Five fingers, one gold glove  
Five fingers, one gold glove  
Five fingers, one gold glove  
Y'all's assemblin'? (So what?)  
Five fingers, one gold glove  
Five fingers, one gold glove  
Five fingers, one gold glove

My space, my power, my time  
My soul, my reality, and my mind  
My space, my power, my time  
My soul, my reality, and my mind
