Closure

Opeth

Heal myself-a feather on my heart Look inside-there never was a start Peel myself-dispose of severed skin All subsides-around me and within

There's nothing painful in this There's no upheaval Redemption for my pathos All sins undone

Awaiting word on what's to come
In helpless prayers a hope lives on
As I've come clean I've forgotten what I promised
In the rays of the sun I am longing for the darkness
