

Sorceress

Opeth

Am

I am a sinner

Dmi

And I worship evil

Ami

Blood is thinner

Dmi

But you will never know

Can you confess

That you thrive in chaos

You're a sorceress

And your eye is on the lost

Cmi **H**mi **B**mi **A**mi

But you're dying

It's in your eyes

You're a sharlatan

You get everything you wish

You're a harlot

Carry poison in your kiss

Beg forgiveness

With a dagger in your hand

Sow your death seed

And reap the dying lands

But you're crying

It's only vice

Empty vessel drained of

Hope and none the lesser at the end of

A rope have you ever hated

Like I?

Know I still awaited the absence of lies

Watch your eager tongue

Attack me from behind

Riddle whisper

Bleak futile control

Like a twin sister

Adapting to a role

You're a murderer

Bloodlust increase

You're a harvester

Come close to spread disease

And you're hiding

I hear you cry
