

## For Tonight

OPM

A new homeless squad moved in on my block  
A man and woman and a little black dog  
He say everything will be okay  
Tomorrow somehow we will find another way

He say stay by side put away pride  
Together in the night far away we will ride  
For them just to want to be together  
Is enough to want to live forever

Be my girl for eternity  
Be my girl for tonight  
Be my girl for eternity  
Be so good to me and I'll treat you so right

My kinda girl I'd find her under the sun  
My kinda girl'd say I'm the only one  
My kinda girl she'd treat me so right  
My kinda girl we'd never get in a fight

She'd fill up my belly with fruits and food  
She'd keep me feeling irie, as you know she should  
She'd call me on the telli to tell me she's good  
I really wish she would

Be my girl for eternity  
Be my girl for tonight  
Be my girl for eternity  
Be so good to me and I'll treat you so right

Always wanting more  
What the hell am I living for?  
Why can't I find the simple life and live humble?  
Tell me what I have to do  
To find the courage and ask her to  
Tell me what I have to do  
To find the courage and ask her to

Be my girl for eternity  
Be my girl for tonight  
Be my girl for eternity  
Be so good to me and I'll treat you so right
