

# Lion's Pride

OPM

Why would you even try  
To fuck with this lion's pride?  
Take it in stride  
I'm coming in with the tide  
I'm alive no comply  
My eyes are pried  
As the day begins  
I'm counting all my blessings  
Mystified trying to take it in  
Never choke when I smoke  
Let it flow, letting go of control  
Never ending like the passing of souls  
This vicious cycle of life  
For real continuous  
Try, to never for change for this  
Why, behave rebellious  
For this we become notorious

Once again old soul, rude survivors  
Natural blend OPM I need no back seat driver  
Layback it's mellow at MNO I just let it flow  
Threw the body and mind we plant the seed and watch it grow

No, I've committed no crime  
No, so say it isn't so

Stick to what you know  
Take things kind of slow  
When you're ready to sweat cry and bleed  
Stand back watch your seed grow  
This 40's got me feeling I can make it by  
I got me seven senses  
But I'm only using five this time  
I'm higher than Zion I'm not lying  
I got to keep dragging myself up from almost dying in side  
They say that lying with pride  
Can make you dangerous  
Ride I'll never stay for this  
Life I'm going to travel this  
World living ghetto fabulous

Once again old soul, rude survivors  
Natural blend OPM I need no back seat driver  
Layback it's mellow at MNO I just let it flow  
Threw the body and mind we plant the seed and watch it grow

No, I've committed no crime  
No, so say it isn't so  
You can take away my time  
But you can't take away my pride  
No, say it isn't so
