

# Levitate

Opshop

It's my fault  
As of now  
If you needed me so  
Why could you not look me in the eye

This could be the big time  
Or be the biggest demonstration  
Of what not to do

I'm strung up, I'm not levitatin'  
I wanted to say (wanted to say)  
Oh maybe you're right  
Once again  
I lost when I hesitated  
For the life of me

Oh-oh oh oh  
Oh-oh oh oh  
Oh-oh oh oh oh

If it's my salt  
In your eyes  
You can crucify me  
If you think you can find the time

It's not about frustration  
It's about what we've got here and now  
I'm not holdin' you up am I

I thought we were levitatin'  
I wanted to say (wanted to say)  
Oh maybe you're right  
Once again  
I lost when I hesitated  
For the life of me'

(Ah')  
I don't mind waitin'  
Oh I, I don't mind  
I don't mind waitin'  
Waitin'

I'm not levitatin'  
I wanted to say  
Oh maybe you're right  
Once again  
I lost when I hesitated  
For the life of me'

'Cause I just wanted  
I just wanna say  
Baby I believe  
Believe you were right
