

One Day

Opshop

Absence make her heart grow fonder
While I'm conquering the last frontier
Lately I've found myself wonderin' out loud
Wonderin' what I was doin' here

One day you'll understand how much you have me
One day you'll realise we have it easy
I can't offer you the future - I don't know it myself
All I can offer you is me
I'm all I can offer you right now

Patience make her heart grow stronger
Reassure her she's where I want to be
Never was the grass ever greener
I'm about ready as I'll ever be

And one day you'll understand how much you have me
One day you'll realise we have it easy
If an expression of love is what you need to believe
All I can offer you is me
I'm all I can offer you right now

I'm all I am
All I am, yeah

One day you'll understand how much you have me
One day you'll realise we have it easy
I can't offer you the future - I don't know it myself
All I can offer you is me

One day you'll understand how much you have me
One day you'll realise we have it easy
If an expression of love is what you need to believe
All I can offer you is me
I'm all I can offer you right now

Absence make her heart grow fonder
While I'm conquering the last frontier
