VERSE 1

I've started with a temptation to hi jack a plane and

crush into white house station. The public look

aggressive in devastation I did it because the research

team just gave me some new medication. I assasin the

owner of a jewelery shop grab my suitcase sell it

illigal I indirectly don't listen to the laws I make

the result to them I'm just a outlaw. I do a tv ad make

the whole broadcast system hypnotized and make a slogan

to drink alchol while your driving in your ride leaning

on the edge of a bridge with the nails holding it

stable if you wanna live re-act real fast.
