

## Can't Decide

Orange 9mm

Stand real close to me and do just like I do  
Open your mind and cock the trigger back far  
Pull it at the point where you feel most pain  
Pull it at the point where you feel most alive

I can't live, I know we can't live  
And life's so dirty, we're so lost  
Standing on the edge of our lives without a dime or a thought o  
r a dream  
Dizzy just crying to fall head over heels in love with somethin  
g

We are waiting for our hits to come  
We are waiting for our hits to come  
I can feel mine rolling along  
Like a song that makes me warm  
I can see yours rolling along  
Your eyes tell me nothing's wrong

How does this feel to smile through our tears  
And grasp wild in the darkness no fears  
Standing on the edge of our lives without a dime or a thought f  
or a dream  
Dizzy just crying to fall head over heels in love with somethin  
g
