

Method

Orange 9mm

Don't tell me nothin', if you ain't there
A lot of people got different opinions
Try to see me with your stare
Make me feel like I'm less of a man

I don't know where you intend to go
'Cause you say that you hate my mind
Where you won't find someone like me
Standin' there just waitin' to

Defy you, fear me, don't you know? Fear me
Defy you, fear me, heads will roll, fear me
Defy you, fear me, don't you know? Fear me
Defy you, fear me, don't you know?

You're all the same, you're all the same
You're all the same

Why do you think you can stay alive?
So many people can't stand you
I refuse to be the crucified
Left to burn and burn to ash

You can wait until I turn to bone
Time will pass but this won't change
There will always be someone like me
Standin' there just waitin' to

Defy you, fear me, don't you know? Fear me
Defy you, fear me, heads will roll, fear me
Defy you, fear me, don't you know? Fear me
Defy you, fear me, don't you know? Fear me

You're all the same, you're all the same
You're all the same, you're all the same
You're all the same, you're all the same
You're all the same, you're all the same

Don't tell me nothin', if you ain't there
A lot of people got different opinions
Try to see me with your stare
Make me feel like I'm less of a man

I don't know where you intend to go
'Cause you say that you hate my mind
Where you won't find someone like me
Standin' there just waitin' to

Defy you, fear me, don't you know? Fear me
Defy you, fear me, heads will roll, fear me
Defy you, fear me, don't you know? Fear me
Defy you, fear me, don't you know? Fear me
[Inaudible]
