

The Filthy & the Few

Orange Goblin

You line 'em up and we'll knock 'em down
You hit the lights and we'll hit the town
You're on the dole, we're on the lam
Born free to ride, we don't give a damn

You live by the law but we live for sin
We fight the war but we'll never win
We're born to lose but baby that's alright
We'll keep on ridin' through the night

Back down, the open road
The only road we've ever known
Step aside cos' we're coming through
We are the filthy and the few

We're hot as hell and you're a stone cold queen
You see our faces on your TV screen
We got no money, we got no friends
We'll keep on the ridin' til the livin' end
