

Fade

Orange & Lemons

I can see it in your eyes
Love is burning oh so bright, tonight

I miss you girl, I miss you so badly
Heaven only knows how much
I'm missing you
I've been thinking of you

Every night and every day, my love
I've been holding you so tight
Holding you close in my dreams

Somewhere, somehow
We will find each other
Broken pieces of our dreams
Won't fade away

Here I am, reminiscing the past
Thinking of us under the sun
I've been thinking of you

I can't forget the time
When you told me that you love me
How I wish you would just call me
Yeah, yeah

Every night and every day, my love
I've been holding you so tight
Holding you close in my dreams

Somewhere, somehow
We will find each other
Broken pieces of our dreams
Won't fade away...

Ahhh...

Somewhere, somehow
We will find each other
Broken pieces of our dreams
Won't fade away

When will this confusion end?
Fade...
When will this waiting end?
Fade...
When will this confusion end?
Fade...
When will this waiting end?
Fade away
