Orange & Lemons

I want you  
I want you madly  
Give yourself to me  
I feel free

I can walk in the sun  
Dance with the rain  
Play with fire  
Never feel the same  
World turns round  
Nothing is the same

You're so heavy  
Feel so cool  
You're so heavy  
Feel so good

You possess me  
You really turn me on  
Oh, I can do anything  
I am free

I can ride in the wind  
Jam with the moon  
Silver stardust on a silver spoon  
World turns round  
It goes on and on and on and on  
And on, and on, and on, and on...

You're so heavy  
Feel so cool  
You're so heavy  
Feel so good  
You're so heavy  
Feel so cool  
You're so heavy  
Feel so good

Nothing is the same  
Nothing is the same  
Nothing is the same  
Nothing is the same
