

Ode To Love

Orange & Lemons

Let my kiss fill your mouth
Let me hear you breathing loud
Hold my hand, don't let go
Look at me and feel my pulse go rapidly

I wanna love you, I wanna take you
Swim the seven seas to have you
Say I'm yours every day
Madly in love, that's how we'll stay

I'll fix you like an eternal jigsaw puzzle
I can never quite figure out
Even thought it'll take me years to write a decent song
I'll figure it out
That's how I love you
(That's how I love you)
That's how I love you

It's hard to explain
Why my heart leaps when I'm with you
Oh, I find myself
Shedding happy tears while I take you

I wanna love you, I wanna keep you
Take you down the aisle and hear you say "I do"
Eternally, madly in love, that's how we'll stay

I'll fix you like an eternal jigsaw puzzle
I can never quite figure out
Even thought it'll take me years to write a decent song
I'll figure it out
That's how I love you
That's how I love you
(That's how I love you)
That's how I love you
(How I love you)
That's how I love, I love you
