Rock-A-Bye

Orange & Lemons

You can rock my baby
But not on a tree-top
You can rock my baby
C'mon don't stop

Then the wind will blow
Through your mind and soul
Hold the cradle still
C'mon let's roll

Rock my baby good
But don't make her sleep
Rock my baby good
But don't make her weep

Hold on the bough is breaking
My baby's gonna crack
Get a hold of the cradle
C'mon don't stop

You should know better
Then to make her fall
I'm gonna get you brother
Someone's head is gonna roll

Rock my baby good
But don't make her sleep
Rock my baby good
But don't make her weep

Rock my baby good
But don't make her sleep
Rock my baby good
But don't make her weep
Rock my baby good
But don't make her sleep
Rock my baby good
Don't make her weep
