

## She's Leaving Home

Orange & Lemons

She's leaving home  
She's leaving me alone  
She no longer needs  
My love anymore

She said lets end up this way  
You can go on your own  
I'm going my way  
You know it hurts inside  
I just can't take it  
And as the tears go by  
There's nothing I can do about it

Why? tell me why, tell me  
Why, tell me why you said goodbye  
Tell me how, tell me  
How could I live without your love

Tell me when, tell me  
When, tell me when, when are you  
Coming back again  
Coming back again  
Coming back again to me

Now that your gone  
I think up things were done  
And all about happiness  
Will shed as one

Your name I always whisper  
With know that you hear it  
Feel it just the same  
I just understand  
And think about it  
That maybe in the end  
It's you and me again
