

The Path I Walk

Orbit Culture

I found it hard
To let you stay
(To let you stay, to let you stay)
I learned disguise
In constant pain
(Constant pain, constant pain)

I learned to lie to make you stay
(You stay, you stay)
Open the box of heartache
(Heartache, heartache)

And eyes behold
(Behold, behold)
I learned that life ain't worth much keeping
I burn inside in a world so cold
The path I walk is blinding me now

I found it hard
To keep it safe
(To keep it safe, to keep it safe)
I put my heart
Inside the crate
(Inside the crate, inside the crate)

I learned to lie to make you stay
(You stay, you stay)
Hoping the lights will go away

And eyes behold
(Behold, behold)
I've learned that life ain't worth much keeping
I burn inside in a world so cold
The path I walk is blinding me, yeah

The path I walk is blinding me

And eyes behold
I've learned that life ain't worth much keeping
I burn inside in a world so cold
The path I walk is blinding me, yeah

The path I walk is blinding me

And eyes behold
I've learned that life ain't much to me now
Look up the sky, you'll find my soul
The path I walk now ends in here
