

The New Dark Age

Orchestral Manoeuvres In The Dark

Around the world, a new day is dawning
Around the world, without warning

So welcome, my friends, to the end
The final page of the new dark age

Around the world, we are crying
Around the world, we're dying

So welcome, my friends, to the end
The final page of the new dark age

So welcome, my friends, to the end
The final page of the new dark age
