

Autopsy Report

Oren Lavie

Age of victim thirty-four
Found spread legged on the floor
Time of death could not be set
Victim says he's not dead yet

Second victim on her back
Yellow hair dyed Auburn Black
Cause of death: a slow decay
Time of death: was every day

Spray a drop of your perfume
Watch the flowers, now in bloom
There's a stranger in your room?

Baby baby made no sound
Saw your body hit the ground

Oh no... Oh no...
You let yourself show
Oh no... Oh no...
You let yourself show
Oh no... Oh no...
Left your fingerprints all over me
Oh no... Oh no...

The departed is survived
By no children and no wife
But a picture of a tree
And a fainted memory

Murder weapon on the bed
Suspect sighted giving head
Victim crouching on his knees
Loves his beautiful disease
And the girl who shot the king
Shook his broken violin
There's no melody within
And the engines made no sound
Saw your shadow hit the ground

Oh no... Oh no...
You let yourself show
Oh no... Oh no...
You let yourself show
Oh no... Oh no...
Left your fingerprints all over me
Oh no... Oh no...

Spray a drop of your perfume
Watch the flowers, now in bloom
There's a stranger in your room?
Baby baby made no sound
Saw your body hit the ground
Oh no... Oh no...

Got your message late last night
Glad your trip turned out alright

I heard you found a little flat
I guess we're better off like that
