

I see the light babe
Only in your eyes
Be anywhere you want me
To be with you tonight

Lying here waiting
Thinking of you
Night is fading
So what you gonna do
You don't have to be alone
If you don't want to

Cause you know I could keep you company
If you want me to
Keep you company
If you want me too

Can you feel the vibe babe
That I'm feeling for you
Like a bolt of lightning
Gonna break on through

Dying here waiting
Thinking of you
The night is wasting
What you gonna do
I don't wanna be alone
I wanna be with you

Cause you know I could keep you company
If you want me to
Keep you company
If you want me too

Do you want me
Do you want me too

Cause you know I could keep you company
If you want me to
Keep you company
If you want me too

Do you want me
Do you want me too
