

Crawling out of the Dark

Orianthi

You said I should put on more makeup
So I wouldn't look so sick and tired when I woke up
You wanted me to be as drunk and depressed as you were
So we could self destruct together

I should've listened to my friends
But I took your side over them

And now I'm crawling out of the dark
Didn't know I fell so far
Tell me did you have fun
Breaking my heart
Everybody dies sometimes
But now I'm coming back to life
I'm crawling out, I'm crawling out of the dark
And I'm crawling out, I'm crawling out of the dark

I could hear you screaming through the walls
Probably cause you're favorite drink was pain pills and alcohol
I can't un-see those pictures on your phone
Was it Gia was it Mia I mean what kinda names are those?

I didn't think I deserved
A better love than whatever we were

And now I'm crawling out of the dark
Didn't know I fell so far
Tell me did you have fun
Breaking my heart
Everybody dies sometimes
But now I'm coming back to life
I'm crawling out, I'm crawling out of the dark
I'm crawling out, I'm crawling out of the dark

I'm crawling out of the dark
Didn't know I fell so far
Tell me did you have fun
Breaking my heart
Everybody dies sometimes
But now I'm coming back to life
I'm crawling out, I'm crawling out of the dark
And I'm crawling out, I'm crawling out of the dark
I'm crawling out, I'm crawling out of the dark
