

Dark Days Are Gone

Orianthi

You pull me in
You pull me under
Just one kiss
Call me your lover
Time always shows you how things really are
I gave you so many years, reopen scars

Ooh
Ooh

Don't leave the light on when you leave
Baby, lock the door, throw away the keys
'Cause my heart, it ain't your home
'Cause I found someone who loves me and won't make me feel alone
Dark days are gone

I am like
Those girls you've known
I don't need a damn thing
No, I'd rather be alone
You think you can buy love
Well, go ahead
One day, you're gonna wake up
And wish I was in your bed

Ooh
Ooh

Don't leave the light on when you leave
Baby, lock the door, throw away the keys
'Cause my heart, it ain't your home
'Cause I found someone who loves me and won't make me feel alone
Dark days are gone

Don't leave the light on when you leave
Baby, lock the door, throw away the keys
'Cause my heart, it ain't your home
'Cause I found someone who loves me and won't make me feel alone
'Cause I found someone who loves me and won't make me feel alone
Dark days are gone
