

## Find It

Orianthi

Today's the day so make a way out of here  
To a higher ground  
You got to make a move, it's up to you  
No one else is gonna bring you down. No, no  
I know that people have let you down  
'Cause when you're down, I know  
There's only one way to go so now don't you know

So take a chance, break a chance  
How you gonna know if you don't know now  
You got to find a way, it's okay  
No one's gonna stop you from looking ground  
You gotta take some time, hear your mind  
Everyone's got something that searching for  
And maybe you'll find it (and maybe you'll find it)  
and maybe you'll find it (maybe you'll find it)

'Cause I've been there, in despair  
Waiting for my life to turn itself around  
Well, it stayed the same, but nothing changed  
Too many days in the lost, then found  
So let me be the one  
and I'll help you to see  
What you could really be

So take a chance, break a chance  
How you gonna know if you don't know now  
You got to find a way, it's okay  
No one's gonna stop you from looking round  
You gotta take some time, hear your mind  
Everyone's got something that searching for  
And maybe you'll find it (maybe you'll find it)  
and maybe you'll find it (maybe you'll find it)

So let me be the one  
To help you to see  
What you could really be  
So learn to dance, start a romance  
Step a little outside the comfort zone  
You can play guitar, be a star  
Make a yourself song you can call your own  
Better take some time, hear your mind  
Everyone's got something that searching for  
And maybe you'll find it, (maybe you'll find it)  
You could be will find with it (you could be will find with it)  
Maybe you'll find it, alright  
You could be will find with it  
Maybe you'll find it  
And then you will know  
To make you find it, alright  
And then you will know  
To make you find it  
Find it  
Gonna try like we've never known  
Maybe you'll find it  
Alright, alright...
