

# Fire Together

Orianthi

City lights shining like the sun  
Driving with you down the 101  
We got the radio turned up so loud  
I wanna live for right here right now

Does it feel good  
Does it feel good  
Does it feel good baby

Let's drive into something sweet  
I can see we got the burning need  
No stop signs up ahead  
Let's live a little on the edge  
Does it feel good  
Does it feel good  
Does it feel good baby

So kiss me like a vampire bite  
We come alive at night  
Just wanna live forever  
Don't care if we never sleep  
Cuz when your next to me  
We're fire together  
Cuz we're fire  
We're fire  
We're fire together  
Cuz we're fire  
We're fire  
We're fire together

There's no bliss when you've gone too far  
And find out what's inside the dark  
Broken angels in disguise  
Pretending we got the wings to fly  
Does it feel good  
Does it feel good  
Does it feel good baby

So kiss me like a vampire bite  
We come alive at night  
Just wanna live forever  
Don't care if we never sleep  
Cuz when your next to me  
We're fire together  
Cuz we're fire  
We're fire  
We're fire together  
Cuz we're fire  
We're fire  
We're fire together

So kiss me like a vampire bite  
We come alive at night  
Just wanna live forever  
Don't care if we never sleep  
Cuz when your next to me  
We're fire together

Cuz we're fire  
We're fire  
We're fire together  
Cuz we're fire  
We're fire  
We're fire together
