

Getting to Me

Orianthi

Stuck in a prison
Of your own delusion
Of everything I've tried to let go
Chemical reaction
I don't understand it
Some things you just never know

This love is so toxic
Get me on a rocket
Mach 20
I'm so ready to go
Standing on my own
Now I'm getting stronger
Not walking alone

Stop getting to me
Stop getting to me, baby

Cut free from your chains
I'll never be the same
This time I'm finally letting go
I was standing on the edge
With you fucking with my head
Now I guess we'll never know

You can't break me
You can't change me
My heart's not on the floor

This love is so toxic
Get me on a rocket
Mach 20
I'm so ready to go
Standing on my own
Now I'm getting stronger
Not walking alone

Stop getting to me, baby
Stop getting to me
Stop getting to me, baby
Stop getting to me, oh yeah

This love is so toxic
Get me on a rocket
Mach 20
I'm so ready to go
Standing on my own
Now I'm getting stronger
Not walking alone

Stop getting to me, baby
Stop getting to me
Stop getting to me, baby
Stop getting to me, oh yeah
