

# Light It Up

Orianthi

Wake me up  
I feel so alive  
I'm so tangled up  
Losing my mind  
It's my jagged little pill  
My one device  
But I can't leave it baby  
Gonna cross that line

Oh  
It so hard when your heart's on the ground  
Oh  
You can't see the lights when you're looking down

When sun the goes down on the city  
And the shadows chase you around  
You think you look so pretty  
But they're just waiting to tear you down  
Light it up

Throw my dreams  
In a wishing well  
This time maybe  
I'll break the spell

It's my one-track mind  
My restless soul  
It's my eyes on the prize  
I want it all

Oh  
It so hard when your heart's on the ground  
Oh  
You can't see the lights when you're looking down

When sun the goes down on the city  
And the shadows chase you around  
You think you look so pretty  
But they're just waiting to tear you down

Light it up  
Light it up  
Light it up  
Light it up

Light it up  
Light it up  
Light it up  
Light it up

Oh  
It so hard when your heart's on the ground  
Oh  
You can't see the lights when you're looking down

When sun the goes down on the city  
And the shadows chase you around

You think you look so pretty  
But they're just waiting to tear you down

Light it up  
Light it up  
Light it up  
Light it up

When sun the goes down on the city  
And the shadows chase you around  
You think you look so pretty  
But they're just waiting to tear you down

Light it up
