

Living is Like Dying Without You

Orianthi

You know I always put you first
Though you drag me through the worst
My love's a drug that you abuse
But living's like dying without you
Memories I can't erase
I tried so hard to drink you away
I guess this game I'm bound to lose
Living's like dying without you

So it's over
You say we're through
You make me cry so hard
Then laugh and say baby I love you
You play my heart strings
Like this old guitar
I keep holding on
Even though it keeps on tearing me apart

And I can't keep that song
From playing in my head
Maybe you forgot
But I remember what you said

You know I'd always put you first
Though you drag me through the worst
My love's a drug that you abuse
But living's like dying without you
Memories I can't erase
I tried so hard to drink you away
I guess this game I'm bound to lose
Living's like dying without you

I wish I could quit you
And walk away
But I'm so addicted
Just like the games you like to play
You're my best friend
You're my enemy
You're the love of my life
The only one who can make me bleed

And I can't keep that song
From playing in my head
Maybe you forgot
But I remember what you said

You know I'd always put you first
Though you drag me through the worst
My love's a drug that you abuse
But living's like dying without you
Memories I can't erase
I tried so hard to drink you away
I guess this game I'm bound to lose
Living's like dying without you
Living's like dying without you

And I can't keep that song

From playing in my head
Maybe you forgot
But I remember what you said

You know I'd always put you first
Though you drag me through the worst
My love's a drug that you abuse
But living's like dying without you
Memories I can't erase
I tried so hard to drink you away
I guess this game I'm bound to lose
Living's like dying without you
Living's like dying without you
Living's like dying without you
Living's like dying without you
Living's like dying without you
