Moonwalker

Orianthi

Hey man
You disappeared
Somewhere in the atmosphere
Where the air is clear
Hey man
Are you lonely out there
Living without a care
Up above the stratosphere

Hey, hey, when you gonna come down
You're too high to touch the ground
Moonwalker you've been chasing the sun
How you gonna land when you're on the run
Hey, hey, can you hear the sound
What it's like when there's no one around
Moonwalker you've been chasing the sun
Never gonna land when you're on the run

Hey man
Riding on the stars tonight
On a one way flight
Landing on a satellite
Hey man
Hope you're in a better place
Hope you found in a better space
To lay your mind to rest

Hey, hey, when you gonna come down
You're too high to touch the ground
Moonwalker you've been chasing the sun
How you gonna land when you're on the run
Hey, hey, can you hear the sound
What it's like when there's no one around
Moonwalker you've been chasing the sun
Never gonna land when you're on the run

Bullet to the sky
You took a ride
You're as high as can be
No one will ever see
All the pain
Has all but washed away

Hey, hey, when you gonna come down
You're too high to touch the ground
Moonwalker you've been chasing the sun
How you gonna land when you're on the run
Hey, hey, can you hear the sound
What it's like when there's no one around
Moonwalker you've been chasing the sun
Never gonna land when you're on the run

Hey man...
