

Argh, say it to my motherfuckin' face
Hey, hey, you really wanna play?
With the flame, you're to blame
That's the price that you pay
I don't give a fuck
I don't give a fuck
I've been waiting for this for fucking way too long
Guess I know my left from right from wrong
Put up a fight if you feel that strong

One headlight and you turn to fawn
You play white knight, but you're just a pawn
You play white knight, but you're just a pawn
One headlight and you turn to fawn
You play white knight, but you're just a pawn, argh

Get my name out of your mouth
Fuck with me and end up on the ground
Get my name out of your mouth
Fuck with me and end up on the ground, ugh
