

JUDGE

Origami Angel

If everything you said is true
I should be bowing down to you
But it's too easy to see through
I pray you get what's coming to you soon

I'm not even worried
I won't even budge
You wanna act like you're a jury
Maybe you should save it for the goddamn judge

I see what the papers say
No one's coming to save your day
I just pray that you fade away
That no one else has to feel this way
I see what the papers say
No one's coming to save your day
I just pray that you fade away
No one has to feel this way again
