

Infinitesimal to the Infinite

Origin

Infinitesimal to beyond
Our cognitive processing of infinity
The cosmos is all that is all that ever was
From lightspeed to absolute zero

Our brief history of time
Confined to a pale blue dot
From the outer realms of obscurity
Our self centered greed arrogant neglect
The cause and effect
Death of our own species

Micro an aggravated cluster
Of providential elements
Disparate our grandeur
Of anthropocentric significance
Irrelevant devoid
Of worth inconsequential being
Macro forever enveloped
In cosmic darks black embrace

The vast cosmic nothingness
From the dawn of time
To the never ending future
Infinitesimal to the infinite

Micro to macro obliteration
Macro to micro regeneration
Create to destroy destroy to create
Opening dimensions of another trait
Infinitesimal to the infinite
