

# Panoptical

## Origin

Chiaroscuro of oppression and indignity  
To live amongst this predatory world  
A reaction to a reaction to a reaction  
While the army of enucleated observe

An aristocracy of misfortune dominates  
The emergence of despotic machines  
A sword suspended above the rabble fraying  
The burning dog bites with stolen teeth

The absence of evidence  
Is not evidence of absence  
Guilt and innocence, arbitrary details  
Acquiescence to panopticon

Yoke the invisible hand, usurp oppressive idolatry  
Omit anything predicate on a revelation  
The paranoic omniscience  
Needed to maintain the reigns  
On the great silence of the terminal commuter  
Thought is a cancer in the bowels of regime  
Under draconian sadists, infest  
Only in death are we free

Yoke the invisible hand, usurp oppressive idolatry  
Omit anything predicate on a revelation  
The paranoic omniscience  
Needed to maintain the reigns  
On the great silence of the terminal commuter  
Thought is a cancer in the bowels of regime  
Under draconian sadists, infest  
Only in death are we free

Marching straight into the jaws of the primitive gears leaping  
Hand in hand to extinction  
The more offensive the lie, the more you'll believe, shackled  
The debt of existence  
Better a terrible end than endless terror, resist  
Face your own execution  
The final nature of man is never  
What he wills himself to be

In the sleep of reason  
All the world's a slave

Usurpation of the apex, ransom denigrated  
Permanent obedience  
Never again, cowering, tortured, inhumane  
The hands of roiling hatred  
Anticipation of damnation, unyielding, perpetual  
Mocked in triumphant contempt  
Under the eye of the abhorrent tyrannical empire  
Life is a memory, then it is nothing but pain
