Origin

Reject defeat derisive divisive reveling in distrust  
Celebration of ignorance myopic call to arms  
With every tool at your disposal  
We will all be disposed of  
Kickstart the congregation  
The fires that burn within us all

Unparalleled alternative reality untethered wrecking ball  
Brilliant exercise in manipulation embrace the absurd  
It's not the progression that we need

Exploit the open abscesses  
Spilling bile in the wounds

Demagogue  
Whos really to blame eight billion special interests  
To keep corralled like children can't make their own decisions  
Oceans of humanity I wish the seas would dry out  
Where is this global warning that I've heard so much about

Punishment befitting a naive populace  
Erosion of logic in favor of regress  
Sardonic feudalist embarrassing spectacle  
I don't want to live on this planet anymore

Unparalleled alternative reality untethered wrecking ball  
Brilliant exercise in manipulation embrace the absurd
