

Antidote

Orion Sun

I fell in love in the sky
On the back of a dragon
It was magic
We were so high, I thought I'd die
'Cause I could see heaven
It was heaven

But it was all a dream
I woke up in my bed
It's so damn hot in here
I got your message read
They tattletale like feds
Just wanna be your friend
And go downtown in the evenin'
Sharin' secrets, I promise I'll keep them

Let's just stay inside my vehicle
I can drive wherever let's go
Your smile is my antidote
Your smile is my antidote

Let's just stay inside my vehicle
I can drive wherever let's go
Your smile is my antidote
Your smile is my antidote

Ridin' through the city like
We gon' rob a bank tonight
Like we ain't got work tonight
I got angels on my side
They ride or dies (so what I'm sayin')
We'll be just fine (so what you mean)
We'll be alright (so what you sayin', yeah)
(So what you sayin') we'll be just fine
So sweet like Krispy Kreme
So smooth like Mr. Softee
Come down my street, please
I got cash money

Let's just stay inside my vehicle
I can drive wherever let's go
Your smile is my antidote
Your smile is my antidote

Let's just stay inside my vehicle
I can drive wherever let's go
Your smile is my antidote
Your smile is my antidote

I don't play the keys like Alicia
But I rock the boat like Aaliyah
Of course I'ma charge for a feature
I don't even know ya
All this is musical theater
With all this drama in my life
I don't need that
You could take that back

Oh, you could take that back
