

Darling

Orion Sun

Our winter nights
Are coming to an end
You say you're alright
But I know you pretend

Life is so funny
It begins then it ends
I don't know nothing
But I still pretend

Take my hand babe
I want you for myself
You're my darling
My sweet, sweet darling oh
Oh baby, we still got some summer left
If you wanted we could go, go, go, go, go

I know rainbows come after the rain (rain)
But somehow the pain won't go away (wait)
I got friends now
Looking out for me now
Like my ancestors
Steady looking out for me now
