

Goodbye

Orion Sun

My head is too big for my shoulders
I don't really got much to say
I'm lonely, could you please come over?
Help me chase all my blues away

It's my only day off you know that
I'm a be up in your spot
Spot spot spot
I don't think that I can control it
I'm done being everything that I'm not
Not not not

Sticking candy in your pants
Running out the corner store
Mama said I cannot hang out with you or your friends no more
But that was 2004
Meet me at the back door
Keep the car running
I'm running
I said I'm coming
Wow
You look so stunning
Lemme fix your top button
Why you always gotta be buggin'
Pull up to the function
With all my niggas
Fashionably late
I haven't already ate
This is fate
Would you like to get some food I know a place
Why the face?
Yes I actually have a place in mind
I know, I know what a surprise
Okay press rewind

My head is too big for my shoulders
I don't really got much to say
I'm lonely could you please come over
Help me chase all my blues away

It's alright
It's alright
To say good bye
To let it go
To let it slide
Its alright
To say goodbye
Bye bye bye bye
Oh no no no
No no no no
No no no no no
