

# Intoxicated

Orion Sun

Here is a colorless liquid that looks like water  
It has a pungent odor and a burning sweet taste  
Its chemical formula is C2H5OH...

I wanna be your girlfriend, your girlfriend  
I wanna be your girlfriend, your girlfriend  
I wanna be your girlfriend, your girlfriend  
I wanna be your girlfriend, your girl, ya girl

I can take you where you wanna go  
I can show you what you didn't know, oh  
And vice versa  
I'm screaming murda murda

(You got a place in my heart)  
You took my heart right out my chest  
(You got a place in my heart) (you got)  
(You got a place in my heart)  
But I don't love you less (you got a place in my heart)

Girlfriend, your girlfriend  
I wanna be your girlfriend, your girlfriend  
I wanna be your girlfriend, your girlfriend  
I wanna be your girlfriend, your girl, ya girl
