

Lightning

Orion Sun

Yeah
Oh, okay
Yeah

Lightning
Struck the house that we used to live in (Uh-huh)
It ain't a home no more
Just a property building with new tenants
So God be my with-
Hold me
Why you acting like you don't know me?
Like I haven't been in your zone

What's goin' on?
I say, "What's goin' on?"
I say, "What's goin' on?"
What's goin' on? (Yeah, okay)

Oh, shit
Looks like we back at the beginning
It's like we haven't moved at all
Thought you'd catch me when I fall
Looks like I'm wrong
What's goin' on?
Looks like I'm wrong
Clouds are closin' in now
Must move along
Lightning strikin' everywhere now
Running fast, hear the crackin' so loud
Oh, it's so loud now

I say, "What's goin' on?"
What's goin' on? (Okay)

I thought that things could get better
Oh, no, no, no
I thought that love lasts forever
But forever's as long as a day
And the day is as long as an hour
When I'm with you, time's not a thing, no, no
I never knew a greater power
Lightning strike through my heart
What the fuck's goin' on?
