

One day first class
Burnin trees in the sky
Have a big laugh
Remember back when I couldn't
Get a bus pass
Lying on my back in the warm grass
Like God, where is you at?
I found you
A genie in the bottle on the shoreline
I took it to a friend on the north side
Traded it for gold and a good time
(Yikes)

Where am I when you're not here?
Where am I when you're not here?
Where am I when you're not here?
Where am I when you're not here?

I'm tryna find my way back home
But the road is closed
And the light is off
And it's winter still
And I hate my phone (oh, oh)

Only one out here is us and this taxi
Head on my shoulders I found God in this backseat
No, I ain't goin backwards (no)
