

Smooth

Orion Sun

Rolodex, all my friends
I don't, can't pretend things ain't different
Cloud of smoke fade memories
Don't act like you don't know what I mean

You're smooth like stone
Smooth like "Smooth Criminal"
Smooth like, "How you get in here?"
Smooth like gel up in your hair, stroke it with a comb
Smooth, brush your edges down
Smooth, brush your edges down

Like cops and robbers, they tryna find us
They'll never find us, they'll never find us
Like cops and robbers, they tryna find us
They'll never find us, they'll never find us

Sticks and stones break my bones
Feel like I'm all alone
Things so different
I forgot what I love
But your voice reminds me of what I need

You're smooth like stone
Smooth like "Smooth Criminal"
Smooth like, "How you get in here?"
Smooth like gel up in your hair, stroke it with a comb
Smooth, brush your edges down
Smooth, brush your edges down

Like cops and robbers, they tryna find us
But they'll never find us, they'll never find us (For real, baby)
Like cops and robbers (For real, baby), they tryna find us
But they'll never find us, they'll never find us

Like cops and robbers (Oh), they tryna find us
But they'll never find us, they'll never find us
Like cops and robbers, they tryna find us
But they'll never find us, they'll never find us
