

# Trying

Orion Sun

This ain't what I want right now  
Slow up, slow down  
Gravity keeping me on the ground  
Wanna go above the clouds  
Where you are, right now  
Smiling down on me  
Want you to know (Want you to know)  
I hate it here without you (I hate it here without you)  
This ain't what I want right now  
Slow up, slow down  
Gravity keeping me on the ground  
Wanna go above the clouds  
Where you are, right now  
Smiling down on me  
Want you to know (Want you to know)  
I hate it here without you (I hate it here without you)

I pray to God, wherever he reside  
If loving her's alright, I love her with all my might  
And every single day, I think about my brother  
That you, you took away  
I'm sorry that I say what I say  
I know it's not good, but sometimes I'm angry  
I know that I could be, but this is life, I know  
It's nothing but unfair

This ain't what I want right now  
Slow up, slow down  
Gravity keeping me on the ground  
Wanna go above the clouds  
Where you are, right now  
Smiling down on me  
Want you to know (Want you to know)  
I hate it here without you (I hate it here without you)
