

Crazy

Orleans

I'm crazy, crazy 'bout the way you love me
Baby, I shiver every time we touch
But sometimes I worry when you're not around
I'm thinking, is this love or something else we've found?

But I keep on falling, keep on falling in love
Falling back again
I keep on falling, keep on falling in love

Well, you're crazy, you're so wild and free
It's not easy living with a man like me, no
'Cause all the miles between us and our time alone
Just seem to fade away when I get back home, girl
And I keep on falling, keep on falling in love
Falling back again
I keep on falling, keep on falling in love
Keep on falling

When you hold me, you keep me up all night

You make it easy to forget about the troubles that we see
Should anybody love somebody this much
That this madness is magic to me

It's crazy, seems like it will never end
And it's stronger, it's stronger than it's ever been (So strong
)
As the years go by, it will lift us higher
And there's no (No) way (Way) to ever, ever put out the fire

And I keep on falling, keep on falling in love
Falling back again
I keep on falling, keep on falling in love
(Yeah, you know I'm about to start a new love)
Keep on falling, keep on falling
I keep on falling, keep on falling
Yes, I keep on falling, keep on falling in love
